Health

COURSE DESCRIPTION

A 6-week e-learning course designed to strengthen knowledge and skills in implementation science and research for effective implementation of NCD programs.

Learn from experts through interactive sessions, real-world case studies and practical tools.

COURSE HIGHLIGHTS

- ✓ Expert-led video lectures & interactive sessions
- ✓ Real-world case studies
- ✓ Practical tools & frameworks
- ✓ Focus on evidence to policy and practice
- ✓ Global perspectives

PROGRAMME FEATURES

6-WEEK
E-LEARNING
PROGRAMME

5
MODULES

FLEXIBLE
LEARNING

CERTIFICATE
ON SUCCESSFUL
COMPLETION

MODULES (5)

- 01 Implementation Science: Overview
- 02 Implementation Research in the Real World
- 03 Case Studies of Implementation Research Projects
- 04 Health System and Implementation Research
- 05 Capacity Building & Funding for Implementation Research

LAST DATE FOR REGISTRATION

31st OCTOBER 2026

EXPECTED OUTCOMES

- ✓ Develop a pool of health professionals trained in implementation sciences and research for effective NCD program implementation.
- ✓ Undertake demonstration projects in LMICs to be up scaled at state and national level.
- ✓ Linkage between evidence generated and implemented for better NCD outcomes.

COURSE FEE

CATEGORY	INDIA (INR)	INTERNATIONAL (USD)
Student	₹ 2,000	USD 50
Member	₹ 2,500	USD 75
Non-Member	₹ 3,000	USD 100

* Registration will be confirmed only when the course fee is paid.

TARGET AUDIENCE

- Public health professionals
- Clinicians working in NCD programs
- Researchers and academicians
- Program managers and policymakers
- Digital health and AI practitioners in health systems
